IBC: 706.1	fire walls		Oppose -From Gary Ehrlich - FS20 restores language BCAC intentionally deleted from 2018 IBC Section 706 via proposal G130-15. Unless you really believe each townhouse unit in a row of townhouses should be designed as if it were the only building on the site, which has major structural design implications, the previous iteration of the BCAC got it right and it would be great if the current BCAC can be persuaded to stick up for its predecessor.
