Notes					
Support ADM20 and 22; CAH2 to coordinate language between IFC, IBC and IEBC					
ADM020-25; added individual cases and natural disaster to IBC only. See modification for individual cases in ADM22.					
ADM020-25; revised individual cases; but does not add ADM20 sections to IBC and IEBC.					
ADM020-25; modification vs. alternative means					
See ADM24 and 25 (coordinate with ADM20); move in front of ADM20					
Would like to argue to delete 'as determined by'					
ADM55-25 duplicate title in IEBC and IPMC; too broad for a hospital or nursing home - needs to be based on protocol; and not entire building if a part is damaged; already addressed in IBC 115 and IFC 116; who would do this?					
ADM55-25 duplicate title in IEBC and IPMC					
2024 Edition does not exist will be 2021 or 2025; ASCE 24 flood update					
Why not submitted nor supported by BCAC					
Not intended to have any change to construction requirements					
Alterations 50% or more require per Section 1009.8 IBC					
Smoke alarms per 1103.8 of IBC required					
Changes work area to area of alteration work...					
Changes work area to area of alteration work...					
Chapter 10 of IBC already allows guards to exceed 48"

Lightning protection assessment	Jeff, Jonathan, Amy	support for hospital; oppose for nursing homes	Track 2-5/3	

Adds exemption for temporary structures for health care					
Errata in hearing order; after G87					
Errata in hearing order; after G94 Part 1					
189.3 is a stretch code not a minimum standard - this was not coordinated with ICC CHC; errata in hearing order					
Needs to coordinate with S59 and S60; What is a 'health care facilities'? Agree with figures, but need to clarify what this is exactly. Nursing homes, Assisted living?					
Issue with microgids; could be read as throwing others batteries into Risk Category 3 - like group homes; already addressed for equipment					
Same argument as S59-25					
See S64-25 for coordination					
Meet same category as building they serve; prefer over S55-25					
Category IV shall have; already part of process for hospitals; have not been required in nursing homes before; coord with S59-25; why is this in structural loads. Lighting protection is in Chapter 27.

fire partitions	Jonathan, Henry, Amy, Bill		Track 2- 4/30	
guards at occupied roofs	Jonathan, Henry, Amy		Track 2- 4/30	
carbon monoxide	Jonathan, Amy, Bill		Track 2- 5/1	
Battery energy storage Cat II	Jeff, Jonathan, Amy	oppose	Track 2- 5/2	
Move Group I-1 Condition 2 to Risk Category IV	Jeff, Jonathan, Amy	oppose	Track 2- 5/2	
nursing home to Risk category 3	Jeff, Jonathan, Amy	support	Track 2- 5/2	

Notes	Hearing Date
	27-Apr
Support ADM20 and 22; CAH2 to coordinate language between IFC, IBC and IEBC	28-Apr
2024 Edition does not exist will be 2021 or 2025; ASCE 24 flood update	29-Apr
Why not submitted nor supported by BCAC	29-Apr
Not intended to have any change to construction requirements	29-Apr
	29-Apr
ASCE 24	29-Apr
ASCE 24	29-Apr
Medical gas only is a concern - need to better explain	30-Apr
Smoke alarms per 1103.8 of IBC required	30-Apr
Chapter 10 of IBC already allows guards to ex	30-Apr
	30-Apr
Group I-2 & Ambulatory Care facilities part of listing	30-Apr
	30-Apr
E105-25; remove exceptions	30-Apr
Corridors are a means of egress component - work with EB108	30-Apr
	30-Apr
	45778
Issue with microgids; could be read as throwing others batteries into Risk Category 3 - like group homes; already addressed for equipment	2-May
Same argument as S59-25	45779
See S64-25 for coordination	2-May

Actions for PC Hearings
Investigate if CHC concern on sprinklers can be separated from the other issues.
Jeff to look into this item and all of the Risk Category proposals including the 2024 cycle hearings. Verify what modification has been made and then prepare PCH proposal to bring into line with CHC intent
Amy to coordinate. Need to talk through with Kim to make sure this outcome will not impact G93 & G94 - Amy to research.
Might not want to pursue - was lots of opposition and is tied with the fair housing act which isn't well understood.
Keep as a monitor and if there are any public comments submitted
Kevin to review. Need to verify how this works with EB108 which is on Consent Agenda - Monitor for public comment submission
Monitor for public comment submission
Jeff to look into these including the 2024 cycle hearings. Need to submit public comment - should consider that this will be presented to the governmental voting members - PC should be AS
